Town Meeting Warrant, 1922

Barnstable, ss.

To either of the Constables of the Town of Harwich,
in said County,

Greeting:—

In the name of the Commonwealth of Massachusetts
you are hereby directed to notify the inhabitants of the
Town of Harwich, qualified to vote in elections and town
affairs, to meet at Exchange Hall in said town, on Mon-
day, February 6, 1922, at 8:30 o'clock in the forenoon to
act on the following articles:—

Article 1. To choose a Moderator to act in said meet-
ing.

Article 2. To determine the rate per cent to be paid
the Tax Collector for the collection of the warrant of
1922.

Article 3. To choose on one ballot the following
Town Officers and Committees:—Town Clerk and Treas-
urer for one year; one Selectman and Overseer of the
Poor for three years; three Herring Committee for one
year; one Tax Collector for one year; two Auditors for
one year; three Constables for one year; one Assessor
for three years; one School Committee for three years;
one Road Commissioner for three years; one Trustee
Brooks Library for three years; one Park Commissioner

for three years and one Park Commissioner for two years.

Article 4. To choose all other necessary Town Officers and Committees.

Article 5. To hear the report of all Town Officers and Committees for the year 1921 and act fully thereon.

Article 6. To see if the Town will vote to authorize the Treasurer with the approval of the Selectmen to borrow money in anticipation of the revenue of the current financial year, and act fully thereon.

Article 7. To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray expenses for the ensuing year, and act fully thereon.

Article 8. To see if the Town will vote to instruct its Selectmen to control, regulate and prohibit the taking of eels, clams, quahaugs and scallops, within the Town's limits as provided in Chapter 91, Section 85, and acts in amendments thereto, of the revised laws of Massachusetts, and to make any regulations in regard to such fisheries as may be deemed expedient, and act fully thereon.

Article 9. To hear the report of the Committee appointed to procure a Soldiers' Memorial, make necessary appropriations therefor, and act fully thereon.

Article 10. To see if the Town will vote to authorize the Town Treasurer to act as Tax Collector, determine the salary, and act fully thereon.

Article 11. To see if the Town will vote to raise and appropriate a sufficient sum of money to level and improve the entrance road to Island Pond Cemetery in Harwich Centre, said entrance being the short road leading from the Main street near the late H. T. Crosby's marble shop, thence to the railroad.

Article 12. To see if the Town will vote to authorize the Selectmen to sell the property known as the Roxanna Chase place at North Harwich, give a deed therefor, and act fully thereon.

Article 13. To hear the report of the Committee appointed to investigate the conditions of the shore frontage of Harwich, make necessary appropriations therefor, and act fully thereon.

Article 14. To hear the report of the Committee appointed to investigate the bathing beach situation in Harwich, make necessary appropriation therefor, and act fully thereon.

Article 15. To see if the Town will appropriate \$50.00 towards extending the stone bridge by concrete work which will include a gate to conserve the water in Seymore's Pond for the passage of herring to and from said pond.

Article 16. To see if the Town will vote to repair the broken shoulders, where necessary, on the Harwich Brewster road, and make appropriation for the same. If advisable, to seek help from the State Highway Commission.

Article 17. To see if the Town will vote to repair or top coat with cinders or some other suitable material the

road known as South street, beginning at Main street, Harwich Centre, near the residence of Bertram D. Crosby and extending southerly to the Sisson road near the residence of the late Jasper Small, and appropriate a sufficient sum of money for the same.

Article 18. To see if the Town will vote to raise the sum of Twenty-five Hundred Dollars, providing the property owners or others will contribute a like sum of Twenty-five Hundred Dollars, all providing the Commonwealth will donate a sum of Ten Thousand Dollars, the whole amount to be used in building a substantial Jetty east of Herring River on the shore at West Harwich, and act fully thereon.

Article 19. To see if the Town will vote to raise and appropriate a sum of money for and to elect a Director for the Cape Cod Farm Bureau as authorized by Sections 41 and 45, Chapter 128, Vol. 1, Pages 1107, 1108, Massachusetts General Laws, relating to Agriculture.

Article 20. To see if the Town will vote to raise and appropriate the sum of Five Hundred Dollars to be expended under the authority of the Board of Health for the Visiting Nurse.

Article 21. To see if the Town will vote to raise and appropriate the sum of (\$450) Four Hundred and Fifty Dollars to enter the Cape Cod Health Bureau and secure the services of the Bureau in the work of the Board of Health.

Article 22. To see if the Town will vote to rescind its action of a former town meeting at which it was voted to establish the rate of wages for labor for men at 50c per hour and for horses at 40c per hour.

Article 23. To see if the Town will vote to pay 35c per hour to men and 30c per hour for horses.

Article 24. To see if the Town will authorize the Selectmen to appoint a Committee of Citizens to investigate and report at the next Town Meeting on the possibility of establishing a Town Forest and to appropriate the sum of (\$25.00) Twenty-five Dollars, for the use of the Committee for this purpose.

Article 25. To see if the Town will vote to raise and appropriate a sufficient sum of money to repair the Railroad Bridge at Harwich station, and act fully thereon.

Article 26. To see if the Town will vote to harden with oil the unfinished portion of the North Harwich road from a point near the North Harwich school house to the residence of the late Henry Phillips, about one mile, appropriate a sufficient sum of money therefor and determine how the same shall be raised, and act fully thereon.

Article 27. To see if the Town will vote to raise and appropriate a sufficient sum of money to top-coat with oil the road in North Harwich leading from the North Harwich station to the school house, and act fully thereon.

Article 28. To see if the Town will vote to raise and appropriate a sufficient sum of money to harden with cinders the road in West Harwich leading from the Church to the Hotel Belmont, and act fully thereon.

Article 29. To see if the Town will vote to raise and appropriate a sufficient sum of money to top-coat with

oil, or otherwise repair and improve Bank street, and act fully thereon.

Article 30. To see if the Town will vote to raise and appropriate a sufficient sum of money to build with oil Parallel street in Harwich Centre, beginning at Hotel Winslow and extending westerly to and connecting with South street, near the residence of Fred Chase, or any part thereof, and act fully thereon.

Article 31. To see if the Town will vote to raise and appropriate a sufficient sum of money to harden and improve with cinders the road in South Harwich beginning at the State road near the South Harwich M. E. Church and extending about one mile south to the location of the former Deep Hole wharf, so called, and act fully thereon.

Article 32. To see if the Town will vote to accept the road in South Harwich, near the Deep Hole, so called, leading from a point opposite Kendrick & Bearse's ice house to the road leading to the Main street in South Harwich, as laid out by the Selectmen, and act fully thereon.

Article 33. To see if the Town will vote to raise and appropriate the sum of One Hundred and Fifty Dollars, or such sum as the Committee examining the road shall recommend, for the purpose of filling the water holes, turnpiking and hardening with cinders, or otherwise, the road leading from the house of the late Cyrus Baker northerly past the house of John F. Allen to the Port Depot road, near the house of Leonard Sears.

Article 34. To see if the Town will vote to raise a sum of money to continue the road from the Allen's Harbor bridge to the west toward the lower bridge in West Harwich and determine how much shall be raised and in what manner the same shall be paid.

Article 35. To see if the Town will vote to raise and appropriate the sum of Five Hundred Dollars to improve and harden the road with cinders from the late Nathan Nickerson corner to the State Highway, near the residence of Asa Rogers and act fully thereon.

Article 36. To see if the Town will vote to raise and appropriate the sum of Three Hundred and Fifty Dollars to harden and improve with cinders the road from the late Nathan Nickerson's corner, extending northwest, as far as the material will go, and act fully thereon.

Article 37. To see if the Town will harden and improve the road in West Harwich, so called Division St., leading from Main street at E. M. Robbins' residence north to the West Harwich depot road, and appropriate a sufficient sum of money therefor.

And you are directed to serve this Warrant by posting attested copies thereof, one in each postoffice in said town, seven days at least before the time of holding said meeting.

The polls will be opened at 9 o'clock a. m. on Monday, February 6, 1922, and may be closed at 2 o'clock p. m.

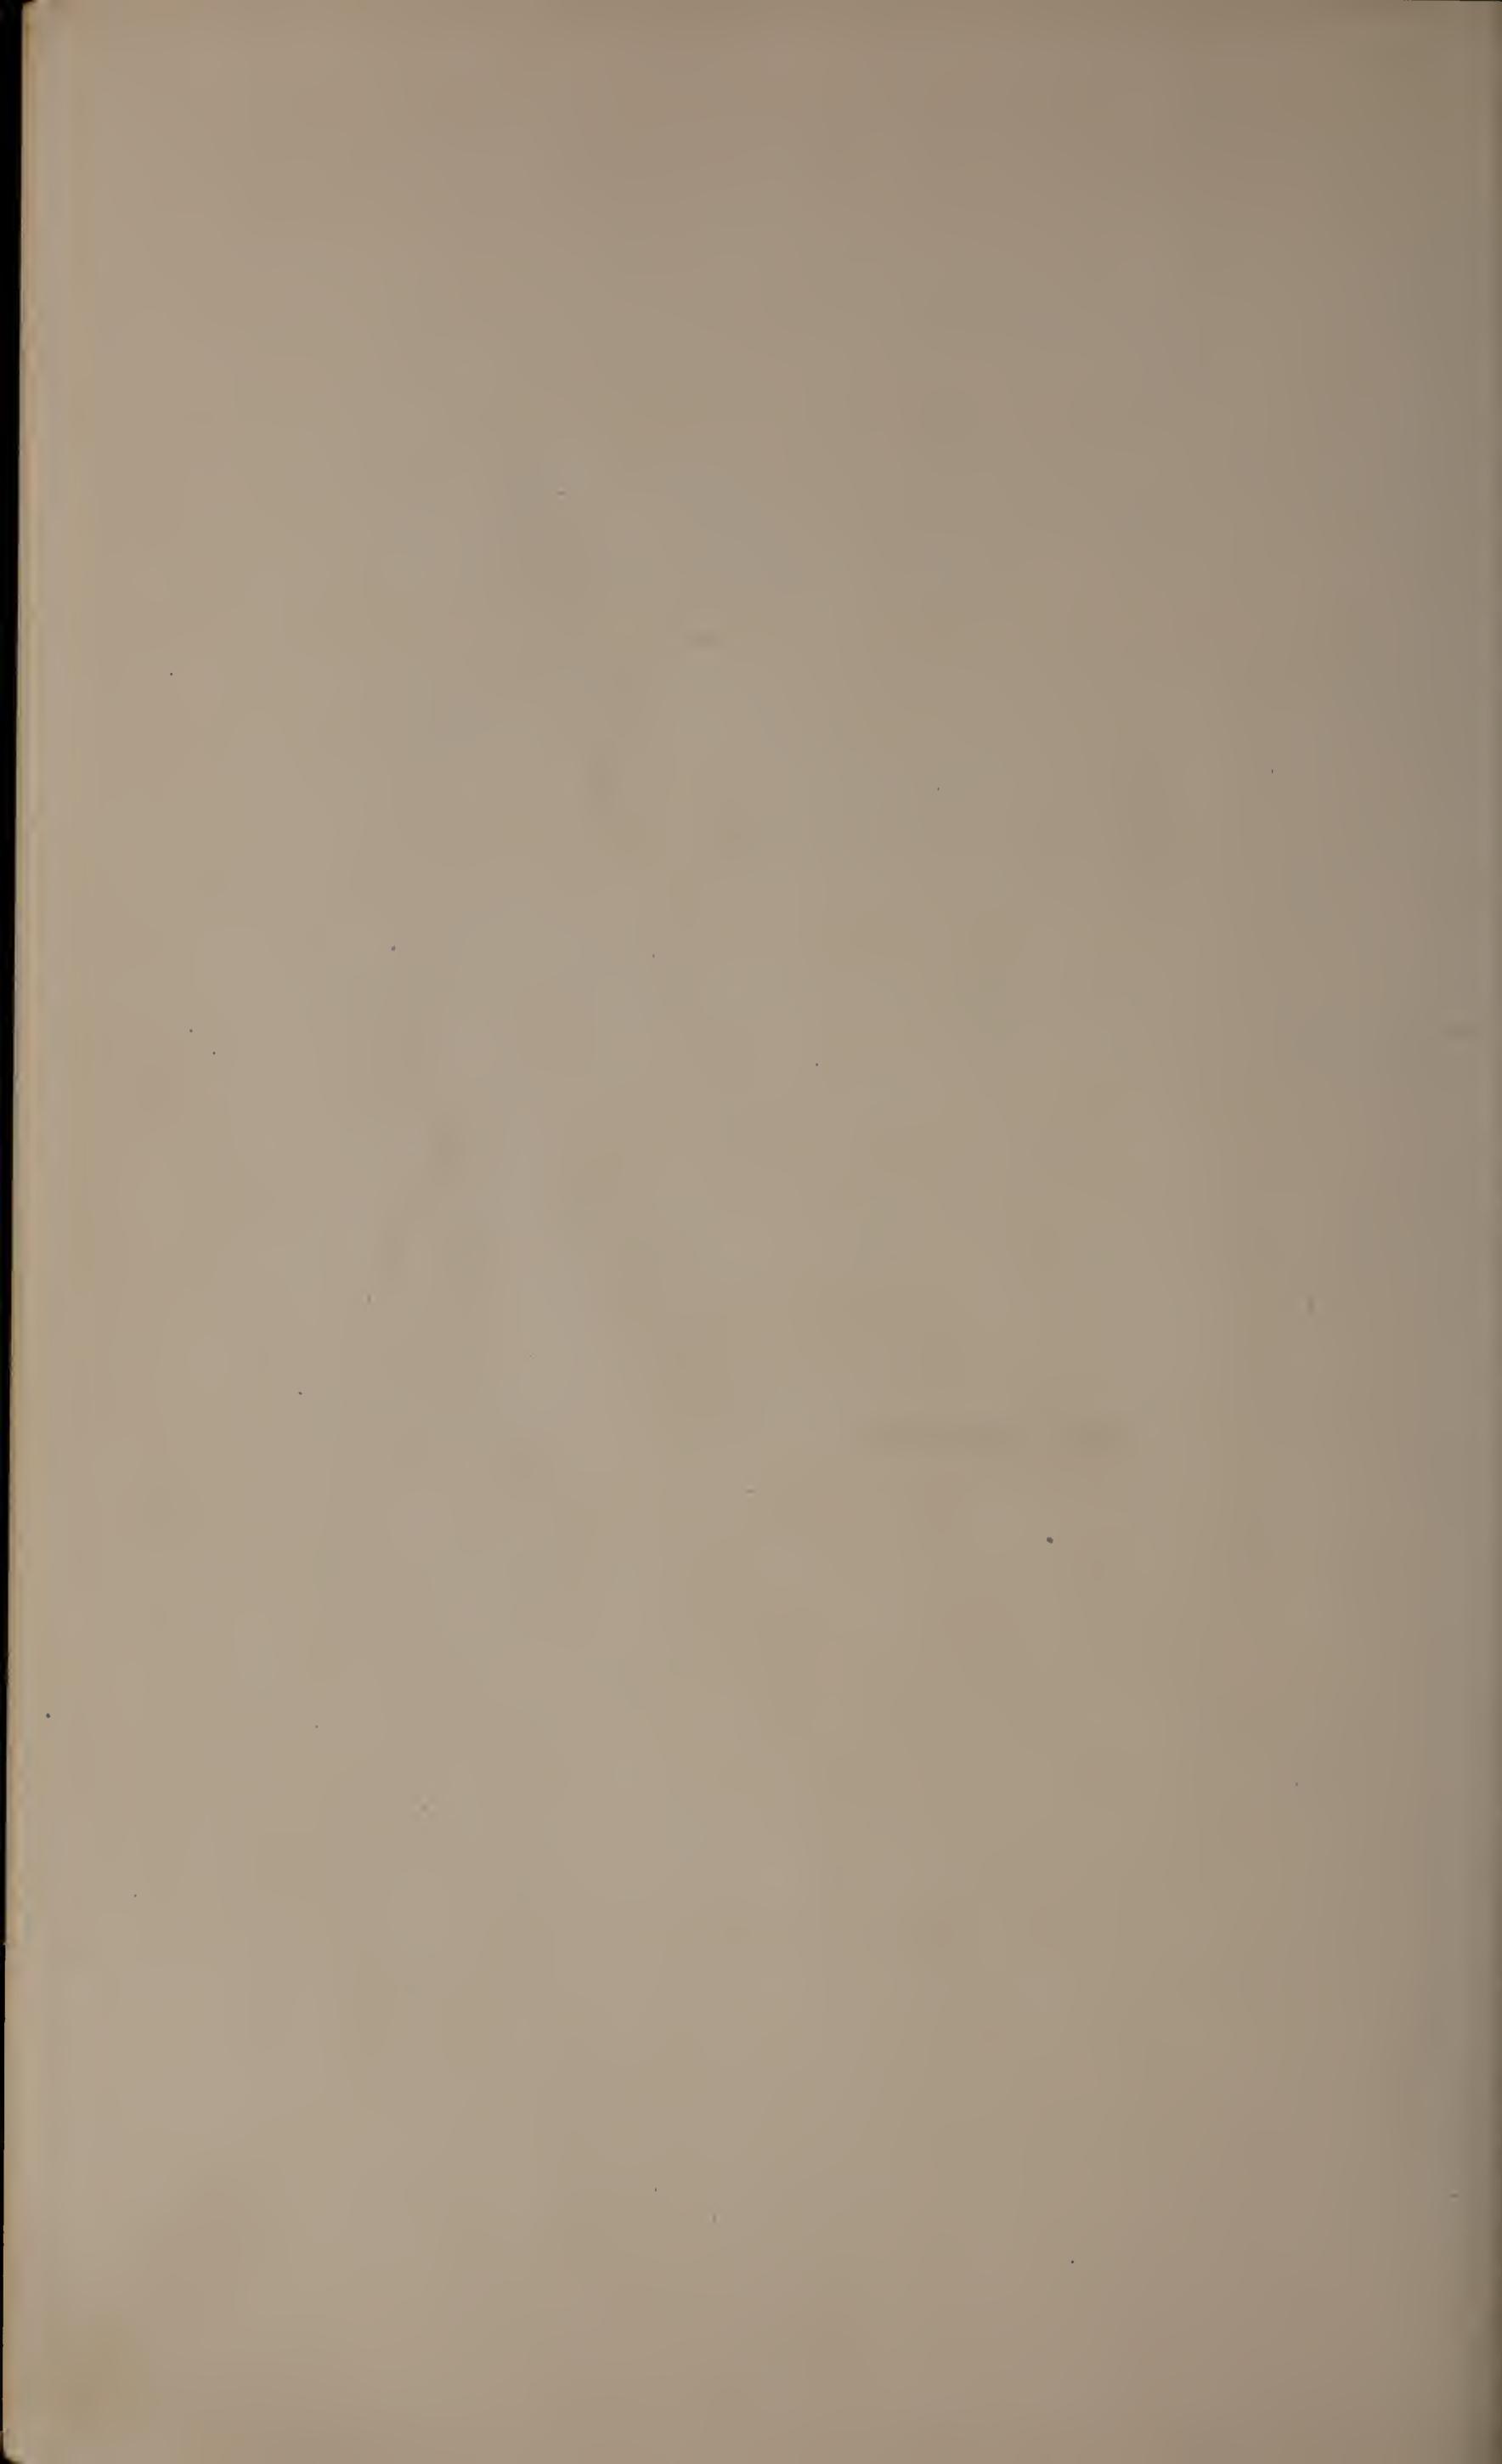

Hereof fail not and make due returns of this Warrant, with your doings thereon, to the Town Clerk at the time and place of said meeting.

Given under our hands this 23d day of January, 1922.

EPHRAIM H. DOANE,
J. FREEMAN RYDER,
THOMAS H. NICKERSON,
Selectmen of Harwich.

Correct attest:

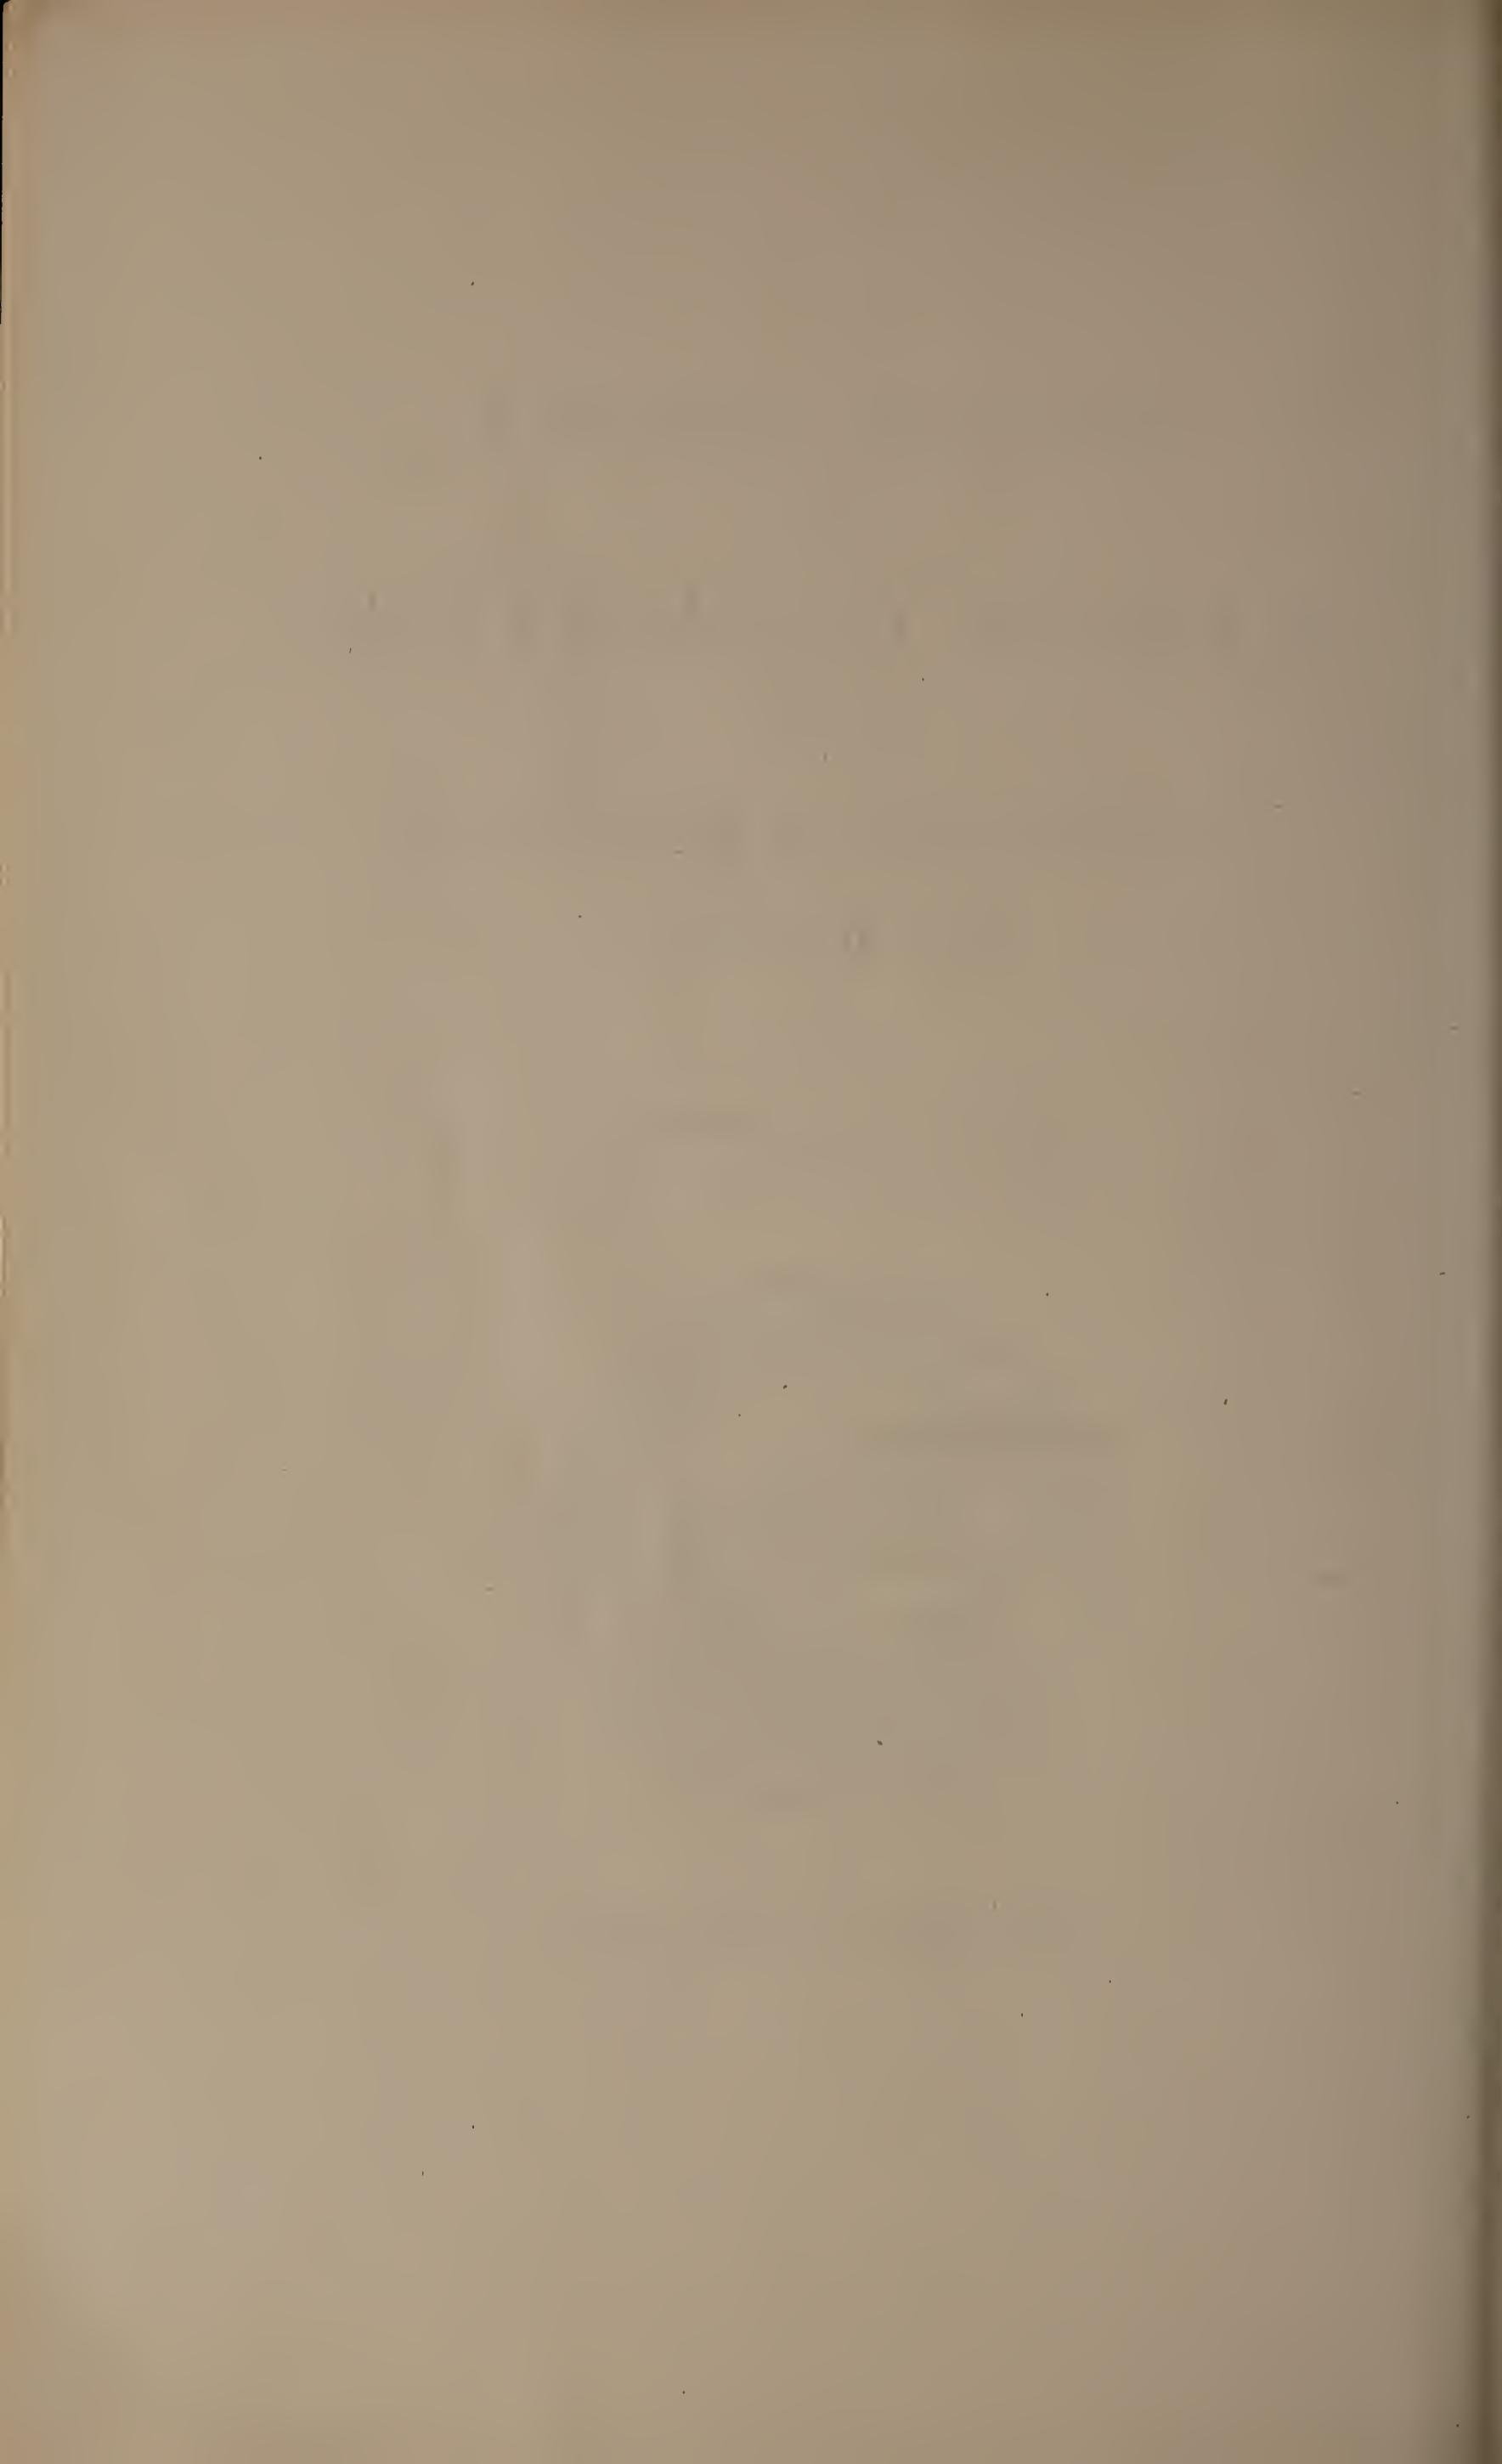

ISAIAH KELLEY,
Constable.

We, the undersigned Auditors of the Town of Harwich, have this day examined the books and vouchers of the school committee and find the same correct.

CHARLES T. CHASE,
EBENEZER WEEKES,
Auditors.

Harwich, Jan. 10, 1922.

ESTIMATES FOR 1922

| | |
|---|-------------|
| Town appropriation for all purposes, | \$25,000.00 |
| Amounts from outside income to be returned to the town on account of schools estimated, | 5,650.00 |
| Net cost to town, | \$19,350.00 |

Superintendent's Report

To the School Committee:

Gentlemen:

I submit herewith for your consideration my fourteenth annual report of the schools of Harwich:

Repairs

A greater amount of money has been expended this year than usual upon repairs and permanent repairs. Harwichport building has had the east roof reshingled with some other outside repairs; the inside of both rooms has had walls painted and ceilings whitened.

West Harwich building has had general repairs done inside and outside.

East Harwich room has been renovated completely.

The buildings at Harwich Center have had the following done: Grammar school room walls painted and ceilings painted. The intermediate room walls and ceilings painted. The High School room walls and ceilings painted.

A bicycle shed for housing bicycles for pupils in all grades riding wheels has been built at the High school.

Transportation

Bids for transportation of pupils, together with specifications as to routes, equipment, etc., were published during the summer and three year contracts were awarded to B. Cleveland Bassett. In this particular field of school work a decided advance step has been taken. The equipment for the work is probably the best on Cape Cod, and no doubt there is none better in New England. The equipment consists of two fourteen-foot Wayne school bodies with one Reo chassis and one Stewart chassis.

These contracts have abolished the payment of a fare by East Harwich parents and is giving North and West Harwich ten months service per year.

Changes in East and West Schools

Grades seven and eight in East Harwich are being transported to Harwich Port Grammar and the same grades in West Harwich are being transported to the Center Grammar.

These changes have greatly improved conditions in East and West Harwich and the added numbers in the Grammar schools at the Port and Center afford larger and more interesting classes and a greater interest and incentive in the pupils to do better work.

Teachers and Teachers' Salaries

Exactly one half of our teaching force of last year resigned and new teachers have been employed to take their places.

Teachers and pupils generally are doing good work and in many cases are having a marked degree of success.

A comparison of teachers' salaries in Harwich with the State average shows, from the latest available returns, that the average salary of Elementary women teachers in the State is \$1,354. For Harwich \$944. State average for High school women \$1,603. For Harwich \$1,100.

This comparison should suffice to answer any suggestions that our salaries are too high. The matter of teachers' salaries is not a local matter and cannot be handled as such but it must be considered statewide and nation wide almost. Teachers are coming to Harwich from many places outside of Harwich and salaries are influenced both by law and public sentiment.

What of the Future?

The past fourteen years have seen many important changes in the school system of Harwich. Scores of young men and women have gone out into the world well equipped from our schools.

Times are changing. Nothing as yet has been done to erect a modern building or modern buildings for the housing of our school children.

I am suggesting for consideration and study the following solution:

1. A three-room modern building at Harwichport for first six grades.

2. A three-room modern building at North Harwich for first six grades.

3. A Junior and Senior High building at the Center for the upper six grades.

This is only a suggestion. It is not guaranteed to be the best solution of the question. A committee appointed by the town with authority to make a study of the whole matter and report to the town would be able to make a definite recommendation. If the above plan should seem best after a thorough study of the needs of the whole town, the financial problem could be solved much easier than in any other way because one building could be built at a time and the financial burden would be comparatively light as compared with one building for the whole town. The ultimate cost would probably be no more than one-half the cost of one new building.

High School

The reports of Mr. Jones, the principal, and Mr. Graves of the Agricultural Dept. follow this report and speak for themselves. The department is in a more prosperous condition than for some time. The High school maintains state approval for certification in class A for admission to State Normal schools.

School Nurse

A law was passed at the last session of the State Legislature requiring school committees to appoint school nurses. Harwich has complied with the conditions of the law and Miss Ada S. Creelman has been appointed. Miss Creelman is employed for one day per week in the schools and one-fifth, approximately, of her salary and expense is borne by the town.

Attention is called to the nurse's report, the reports of the Supervisor of Music and Drawing, the School Physician's Report and tables and statistics herewith.

Respectfully submitted,

LORING G. WILLIAMS.

Jan. 10, 1922.

Report of High School Principal

Mr. Loring G. Williams
Supt. of Schools
Harwich, Mass.

The 1921 report of the Harwich High School is necessarily different from the last for two reasons: (1) Because the opening of the fall term witnessed a complete change in the teaching force, with the exception of Mr. Graves. (2) Because of the unbiased position of "Newcomers" in which we are placed we feel free to commend or attack the existing conditions and perhaps offer suggestions which have as their aim, "A more complete working together of the Home and the School."

Harwich is to be congratulated that it is included in the first 18% of the 354 towns in Massachusetts which use as their sole means of transporting public school pupils the Motorbus. Experts pronounce the Motorbus, "Superior to the horse-drawn vehicle because of its speed, regularity and general comfort."

It is nevertheless true that we are not alike this first 18% in some other respects. We are not transporting these pupils to one large building, in fact we are not sure that in our particular case one building could serve us best. We sorely need more room for recitations, for study rooms, for laboratory work; we need

space in which can be developed a domestic Science Department (including a chance for serving a hot lunch at noon during cold months;) we need space in which a Manual Training Department can grow, suitable quarters for a Commercial Department, and better facilities for the present Agricultural Department. There is no need to consider outfitting all the above completely; they will develop as their worth becomes more and more evident,—but first we need room in which to start.

A really practicable plan which uses to the limit the experiences of other communities faced with similar problems, and which at the same time takes into account the peculiarities of our particular situation, needs to be up for "Immediate Attention" in the "Solution Receptical" of every mind in Harwich at all interested in the future of Harwich Education. We are waiting only for the Practicable Plan.

Another problem staring us in the eye is that of getting all the pupils at school all the time. Any public organization whether church, club or secret order must have its members present at its regular meetings if it wants a chance for a successful year. The same applies to the school. We have 60 pupils enrolled in the High School. During the 20 school days in December there were 43 different pupils who for various reasons were out of school for a total of 224 half days; this time if applied to one pupil would permit him a recess from Sept. 7, 1921 to Feb. 22, 1922, (this allowing the usual vacation at Xmas.

Absence in the business world is not tolerated; tardiness is penalized in various ways. In the schools both

absence and tardiness are costly in terms of opportunities missed—a few pages can be memorized and a question as to their content by the teacher has constituted the “Make Up” work. Work missed can never be made up—the class interest and views as brought out by discussion cannot be reproduced at will for the benefit of either the absent or the tardy pupil. Just how each parent can help solve this problem is best an individual matter.

Mr. Heald of the Massachusetts Dept. of Education states, “Every day a boy or girl spends in High School increases his or her earning capacity by \$10. Is there any other way in which a pupil’s time can earn more wages than that per day?

It is not entirely Earning Power that the schools are trying to better, as I can readily show if I but note the recently accepted “7 Aims of All Secondary Education.” In order of their importance they are: (1) Health. (2) Command of the Fundamental Processes (3) Worthy Home Membership. (4) Vocation. (5) Civic Education. (6) Worthy use of Leisure. (7) Ethical Character.

It may not be the things learned from books which make a High school today indispensable; but the friendships of the pupil and teachers and of the pupil and pupil are invaluable.

A single fact unfolded at the right time to the right pupil may produce an Edison, a Wannamaker or a Curie. We in Harwich can afford to let neither the sure things nor the possibilities in Education, due to any cause whatever, be lost to any pupil.

In every lifetime there is a choice between two or more possibilities, either once chosen usually means choosing a lifework. Suppose we choose the wrong one?

It is to lessen the tragedies due to misfits and in order to increase the possibilities of placing the boys and girls in the work for which they are best adapted, both naturally and thru training, that we have introduced The Project Method of Learning. This Project work attempts to present various phases of different subjects in an attractive manner, so that every pupil may determine: (1) Particular interests in a few subjects and (2) General interests in the whole field of knowledge.

In every course the method of learning is modified to meet the particular need; it may vary from the familiar poultry project to a research in the libraries (home, school and town) to find out all possible about the Phases of the Moon or Insects as Man's Helpers. We are using this learning process this year and have some very good results.

There might appear to some casual observer that there is more or less duplication of scientific work by the Agricultural or the Academic Depts.; there is none—if the Agricultural Dept. demonstrates Soil Testing the Academic pupils can witness it, or if the Academic Dept. is to attend an illustrated lecture "Mouth Hygiene," the Agricultural Dept. boys, due to the hearty cooperation of Mr. Graves, also attend the lecture.

We have better equipment for the Biological and Chemical Sciences than in the Physical. We have recently had a welcome addition in the form of a gas heating plant; it serves well in Physics and General Science.

For the first time we have this year daily weather reports from the Washington Weather Bureau, and too we are using extensively all the scientific magazines available from any source in both Science courses.

Occasionally there are reports from teacher to parent concerning the pupils. Each one of these is a Parent-Pupil Teacher proposition. If it is a Congratulatory report the parent will doubtless encourage; but if it is of the "Chance-to-do-more-Work" variety, there needs to be an investigation of the cause, by the parent, and in accord with the findings, advice given by the parent; in any case Encouragement, not Discouragement is needed.

As teacher our relation to the community will be determined largely by our strength, which must first be applied to our school duties. We shall hope to become intimately acquainted with every parent, thus being better able to guide the pupil intelligently.

The success of this school year will depend directly upon the measure of cooperation between the Parents, Pupils and Teachers.

Respectfully submitted,

H. V. JONES.

Report of Agricultural Department

Superintendent L. G. Williams,
Harwich, Mass.

Dear Sir:—

It gives me great pleasure to submit this, my second and the twelfth annual report of the Agricultural Department of the Harwich High school.

The department has rendered the usual agricultural assistance throughout the year and has met with the approval of the Board of Education in every way.

During the past year we organized a successful Boys' and Girls' Club and our poultry judging team defeated the Falmouth and Bourne teams at the Barnstable County Fair.

Together with the Farm Bureau several demonstrations in culling poultry and pruning orchard trees have been given and greatly appreciated. More of these meetings will be held this year.

This year the agricultural department opened with an enrollment of thirteen boys, which is nearly one-fourth of the total number of students in our high school. Probably the majority of these boys would not attend school were it not for our state-aided vocational department.

This year the following courses are open to agricultural boys:

Group I. Vegetable gardening.
Agronomy.
Agricultural Survey.
Business Arithmetic.
English.
General Science.

Group II. Advanced Poultry Husbandry.
Dairying.
Dairy Survey.
English.
U. S. History.
Physics.

Our boys successfully cooped the poultry and pet stock at the Harwich Fair, this department having the largest exhibit in years.

Our agricultural boys exhibited at the Harwich Fair, the Bourne Poultry Show, and the Barnstable County Fair, and won over fifty dollars in prizes.

Perhaps the most striking work accomplished this year is the establishment of the Unit Courses. There were eight adults who took the course and all felt they had received very material aid from the agricultural department. Approximately one third of the instructor's time was taken up in this work, thus reducing the per capita cost very materially.

We have also started some work in carpentry and the boys have learned how to use the more common tools. During the past year they have built mash hoppers, nest boxes, poultry houses and simple surveying equipment.

The requirements this year are that the boys shall run either garden, poultry or dairy projects.

Some boys will run three projects. One boy had Rhode Island Red pullets laying at five months and has already gotten 650 eggs. He has recently bought a five dollar cockerel and is planning to sell hatching eggs next spring.

Another boy learned how to kill poultry, went home and earned a dollar before sun down killing poultry.

Another boy not only kills poultry but also kills ducks and geese. Even the local dealers hire him to kill their poultry.

The younger boys are more interested this year than ever before and are doing some exceptionally fine work.

Anyone who attended the Harwich Fair could not help realizing that Harwich soils can produce some excellent crops, and we hope that our boys may get an incentive, through their studies and observations in the agricultural department, to start a large agricultural enterprise.

In closing, I wish to express my thanks to Mr. H. V. Jones, our principal, for his cooperation and interest in the work of this department.

Respectfully submitted

B. R. GRAVES,
Agricultural Instructor.

Report of Supervisor of Music

Superintendent L. G. Williams,
Harwich, Mass.

Dear Sir:—

Starting in January last year it was hard to form any definite program as all the schools seemed to be at a different point. So for the remainder of the year we hurriedly reviewed and covered the years work enough to enable the grades to begin their new work this year.

This year in some of the grade schools a slight change in the division of classes has helped in the comprehension of the work. They show a great advancement over last year's work and will cover much more ground.

Last year in the High School was spent in chorus and community singing to arouse an interest in music. The Girls' Glee Club was reorganized and carried on on a small scale. This year there being twice as many boys as girls I thought it advisable to also start a Boys' Glee Club to interest the boys and at the same time help the general chorus singing. This has been done with a very satisfactory beginning, and it is hoped the results will be as satisfactory.

Respectfully submitted,

LAURA E. HASKINS,
Supervisor of Music.

Report of Supervisor of Drawing

Superintendent L. G. Williams,
Harwich, Mass.

Dear Sir:—

The drawing of last year followed a brief outline to arouse, most of all, the interest of the pupils, at the same time giving a general idea of proportion, perspective and the use of color.

In enlarging on last year's work, this year I have started a course of Applied Art which enables the pupils to use their knowledge obtained in design, handicraft and the more general uses of vocational art.

In the High school I wish to create a desire to do original work. The Applied Art Course is being carried on in a more advanced form, at the same time teaching the pupils originality and personal inventiveness.

Respectfully submitted,
LAURA E. HASKINS,
Supervisor of Drawing.

Report of School Physician

To the School Committee of the Town of Harwich:
Gentlemen:

My report as School Physician for the past year is of such a character as to be pleasing to myself and I hope to the parents of the children and I trust that you will be equally pleased.

This past year has been a wonderfully healthy one so far as our schools are concerned, there being almost no epidemic diseases and the schools have been closed for health reasons less than has been usual.

In the inspection which has been completed this fall few very serious conditions have been found. Some cases of enlarged tonsils and adenoids have been found and the School Nurse, Miss Creelman, has been and is busy in her follow up schedule.

I would call particular attention to the condition of the teeth and especially ask that the parents cooperate with the School Nurse in having proper treatment given the offending tee'h. A little money expended early on the teeth will pay large dividends later in the better health of the individual. A great number of diseases and conditions have been found due to poor teeth and it is a wise parent who, in time, attends to the care and preservation of those most useful members.

Respectfully,

H. D. HANDY, M. D.,
School Physician.

Report of School Nurse

Mr. Loring G. Williams,
Supt. of Schools,
Harwich, Mass.

Dear Sir:—

Since the school work began I have been visiting each school at least once a week. After the physical examinations were completed Oct. 24th, I started the follow up work, visiting the homes and seeing the parents, or guardians, especially those whose children were reported to have defective eyesight. Five of the children have attended the eye clinics in Hyannis and have been fitted with glasses.

At the beginning of the school term several children had colds. During November and December there were three cases of tonsilitis, one of diphtheria and one case of appendicitis. One child was found with scabies and sent home and several with pediculosis were sent home.

The Health Crusade has been started in all the primary and grammar schools.

Respectfully,

ADA CREELMAN,
School Nurse.
